WHO WE ARE

Sooner Biomed LLC is an independent biomedical equipment service company based in Shawnee, Oklahoma, led by Ignace Zidor. With nearly two decades of hands-on biomedical and imaging equipment experience and GE SIGNA Voyager MRI certification, Ignace currently serves as a biomedical department head within a tribal health system, managing day-to-day compliance for Joint Commission, NFPA 99, ACR, AAMI, and CLIA standards on the equipment patients and staff depend on every day. Sooner Biomed brings that same insider, compliance-first standard directly to your facility.

CORE SERVICES

- Preventive maintenance, scheduled inspections with full compliance documentation
- NIST-traceable calibration of patient monitors, defibrillators, infusion pumps, and more
- Board-level diagnostics and repair of imaging and biomedical equipment
- Contrast injector service, Medrad, Guerbet, and Bracco injector PM, calibration, and repair
- Equipment installation, relocation, and de-install support
- Compliance support, inventory management, recall tracking, audit-ready reporting
- Short-term biomedical staffing support

EQUIPMENT EXPERIENCE

GE MRI & CT • GE SIGNA Voyager (certified) • GE OEC 9800/9900 C-arm • GE Portable Revolution & Fuji Portable X-ray • Carestream Compass • Hologic Dimensions mammography • Medrad, Guerbet, and Bracco contrast injectors • EKG, defibrillator, and autoclave equipment • general outpatient clinic equipment

WHY SOONER BIOMED

- **Tribal health fluency:** current, hands-on experience with the compliance standards and operational realities of outpatient tribal facilities, not an outside vendor learning the environment.
- **Fast local response:** same-day dispatch within 50 miles, with availability evenings after 5 PM on weekdays and all day on weekends, equipment gets attention without disrupting clinic hours.
- **Audit-ready documentation:** every visit produces the compliance records your facility needs for Joint Commission and CMS surveys.
